Introduction	xi
<i>W. Keith Campbell and Joshua D. Miller</i>	
List of Contributors	xiii
 Section I Narcissism and NPD: Constructs and Models	
Chapter 1 A Historical Review of Narcissism and Narcissistic Personality	3
<i>Kenneth N. Levy, William D. Ellison, and Joseph S. Reynoso</i>	
Chapter 2 Narcissism in the DSM	14
<i>Elizabeth K. Reynolds and C. W. Lejuez</i>	
Chapter 3 Narcissism in Official Psychiatric Classification Systems: Toward DSM-5	22
<i>Susan C. South, Nicholas R. Eaton, and Robert F. Krueger</i>	
Chapter 4 Narcissistic Grandiosity and Narcissistic Vulnerability	31
<i>Aaron L. Pincus and Michael J. Roche</i>	
Chapter 5 Psychoanalytic Theories on Narcissism and Narcissistic Personality	41
<i>Elsa Ronningstam</i>	
Chapter 6 Narcissism From the Perspective of the Dynamic Self-Regulatory Processing Model	56
<i>Carolyn C. Morf, Loredana Torchetti, and Eva Schürch</i>	
Chapter 7 Trait Personality Models of Narcissistic Personality Disorder, Grandiose Narcissism, and Vulnerable Narcissism	71
<i>Joshua D. Miller and Jessica Maples</i>	

Chapter 8	Narcissism, the Agency Model, and Approach-Avoidance Motivation	89
	<i>Joshua D. Foster and James C. Brennan</i>	
Chapter 9	Behind the Mask: Narcissism and Implicit Self-Esteem	101
	<i>Virgil Zeigler-Hill and Christian H. Jordan</i>	
	Section II Assessment of Narcissism and NPD	117
Chapter 10	Assessment of Narcissistic Personality Disorder	119
	<i>Chris Watson and R. Michael Bagby</i>	
Chapter 11	The Measurement of Trait Narcissism in Social-Personality Research	133
	<i>Michael Tamborski and Ryan P. Brown</i>	
Chapter 12	Of Tails and Their Dogs: A Critical View of the Measurement of Trait Narcissism in Social-Personality Research	141
	<i>Ryan P. Brown and Michael Tamborski</i>	
Chapter 13	Addressing Criticisms of the Narcissistic Personality Inventory (NPI)	146
	<i>Joshua D. Miller and W. Keith Campbell</i>	
Chapter 14	Assessment of Youth Narcissism	153
	<i>Christopher T. Barry and Lisa L. Ansel</i>	
	Section III Epidemiology and Etiology of Narcissism and NPD	165
Chapter 15	Sociodemographic Correlates of DSM-IV Narcissistic Personality Disorder: Results From the Wave 2 National Epidemiologic Survey on Alcohol and Related Conditions (NESARC)	167
	<i>Attila J. Pulay, Risë B. Goldstein, and Bridget F. Grant</i>	
Chapter 16	Parenting as a Cause of Narcissism: Empirical Support for Psychodynamic and Social Learning Theories	181
	<i>Robert S. Horton</i>	

Chapter 17	Examining “Developmental Me”: A Review of Narcissism as a Life Span Construct	191
	<i>Patrick L. Hill and Brent W. Roberts</i>	
Chapter 18	Narcissism and Culture	202
	<i>Jean M. Twenge</i>	
Chapter 19	The Intertwined Evolution of Narcissism and Short-Term Mating: An Emerging Hypothesis	210
	<i>Nicholas S. Holtzman and Michael J. Strube</i>	
Chapter 20	Neurophysiological Correlates of Narcissism and Psychopathy	221
	<i>Elizabeth A. Krusemark</i>	
	Section IV Comorbidity and Correlates	237
Chapter 21	Comorbidity Between Narcissistic Personality Disorder and Axis I Diagnoses	239
	<i>Sebastian Simonsen and Erik Simonsen</i>	
Chapter 22	The Comorbidity of Narcissistic Personality Disorder With Other DSM-IV Personality Disorders	248
	<i>Thomas A. Widiger</i>	
Chapter 23	“I Love Me Some Me”: Examining the Links Between Narcissism and Self-Esteem	261
	<i>Jennifer K. Bosson and Jonathan R. Weaver</i>	
Chapter 24	Psychopathy and Narcissism	272
	<i>Donald R. Lynam</i>	
	Section V Intra- and Interpersonal Processes	283
Chapter 25	Getting to Know a Narcissist Inside and Out	285
	<i>Erika N. Carlson, Laura P. Naumann, and Simine Vazire</i>	
Chapter 26	Self-Other Discrepancies	300
	<i>Thomas F. Oltmanns and Erin M. Lawton</i>	

Chapter 27	Narcissistic Self-Enhancement	309
	<i>Harry M. Wallace</i>	
Chapter 28	When the Narcissistic Ego Deflates, Narcissistic Aggression Inflates	319
	<i>Brad J. Bushman and Sander Thomaes</i>	
Chapter 29	The Emotional Dynamics of Narcissism: Inflated by Pride, Deflated by Shame	330
	<i>Jessica L. Tracy, Joey T. Cheng, Jason P. Martens, and Richard W. Robins</i>	
Chapter 30	Narcissism and Romantic Relationships: Understanding the Paradox	344
	<i>Amy B. Brunell and W. Keith Campbell</i>	
Chapter 31	Narcissism and Sexuality	351
	<i>Laura Widman and James K. McNulty</i>	
Chapter 32	Narcissism and Social Networks	360
	<i>Allan Clifton</i>	
Chapter 33	Narcissism and the World Wide Web	371
	<i>Laura E. Buffardi</i>	
Chapter 34	Narcissism and Brand Name Consumerism	382
	<i>Constantine Sedikides, Sylwia Cisek, and Claire M. Hart</i>	
Chapter 35	Leadership	393
	<i>Robert Hogan and James Fico</i>	
Chapter 36	Celebrity and Narcissism	403
	<i>Brittany Gentile</i>	
Chapter 37	Narcissism and Spirituality	410
	<i>Steven J. Sandage and Shane P. Moe</i>	
	Section VI Treatment	421
Chapter 38	Psychodynamic Psychotherapy for Narcissistic Personality	423
	<i>Diana Diamond, Frank Yeomans, and Kenneth N. Levy</i>	

Chapter 39	Attachment Theory and Narcissistic Personality Disorder	434
	<i>Björn Meyer and Paul A. Pilkonis</i>	
Chapter 40	Schema Therapy for Narcissism: The Art of Empathic Confrontation, Limit-Setting, and Leverage	445
	<i>Wendy T. Behary and Eva Dieckmann</i>	
Chapter 41	Cognitive Behavioral Approaches to the Treatment of Narcissistic Personality Disorder	457
	<i>Kelly C. Cukrowicz, Erin K. Poindexter, and Thomas E. Joiner, Jr.</i>	
Chapter 42	Treatment of Narcissistic Personality Disorder Symptoms in a Dialectical Behavior Therapy Framework: A Discussion and Case Example	466
	<i>Bonney Reed-Knight and Sarah Fischer</i>	
Chapter 43	Treating Narcissus: A Basic Research Perspective	476
	<i>Sander Thomaes and Brad J. Bushman</i>	
Conclusion	Narcissism and Narcissistic Personality Disorder: Six Suggestions for Unifying the Field	485
	<i>W. Keith Campbell and Joshua D. Miller</i>

Introduction

W. Keith Campbell and Joshua D. Miller

Interest in the topic of narcissism and its clinical variant, narcissistic personality disorder (NPD), has grown dramatically in recent years. Research on this topic was traditionally found in the fields of social-personality psychology (trait narcissism) and clinical psychology and psychiatry (NPD). More recently, however, work on narcissism has made its way into industrial-organizational (I-O) psychology, developmental psychology, decision making, organizational behavior, criminology, educational research, and political science. Narcissism is examined as a variable of interest in research on many cutting-edge topics, such as behavior on the World Wide Web, corporate leadership, ethics and criminality, and celebrity. Somewhat ironically, narcissism is “hot.”

Unfortunately, this interest in narcissism is hampered by several historical divides. There is the divide between research on trait narcissism versus the categorically conceived of diagnosis of NPD. This split often divides the theory-rich clinical approaches from the data-rich empirical approaches found in social-personality psychology. This divide pervades all aspects of the study of narcissism, including the basic conceptualization of the construct with clinically oriented theorists emphasizing narcissistic vulnerability and social-personality researchers emphasizing narcissistic grandiosity. Indeed, several of the chapters in this handbook present data suggesting that vulnerability and grandiosity may represent two distinct forms or states of narcissism. Given these divides, there are many bridges that need to be built between fields, researchers, and practitioners.

Our goal in organizing *The Handbook of Narcissism and Narcissistic Personality Disorder* was to bridge these divides by bringing together in one place a diverse and accomplished group of narcissism researchers and practitioners. The *Handbook* is integrative in that it covers both trait narcissism and NPD. Likewise, it includes contributors from across the spectrum of psychology (clinical, social-personality, I-O, and developmental) and related fields. We have contributions from researchers from a range of theoretical perspectives as well—for example, you will find chapters on psychodynamic (Ronningstam, Chapter 5), social-psychological (Morf and colleagues, Chapter 6) and trait models (Miller and Maples, Chapter 7) of narcissism side-by-side. Likewise, the treatments discussed in the *Handbook* range from psychodynamic (Diamond and colleagues, Chapter 38), cognitive-behavioral (Cukrowicz and colleagues, Chapter 41) and even experimental interventions (Thomaes and Bushman, Chapter 43). In short, thanks to the work of a group of talented contributors, we have a truly integrative *Handbook* that should benefit readers from a wide array of perspectives.

The *Handbook* itself is organized into six sections. Section I focuses on the constructs of narcissism and NPD. We start with a historical overview of both constructs by Levy and colleagues (Chapter 1). This is followed by two chapters on NPD and the *Diagnostic and Statistical Manual of Mental Disorders (DSM)*. The first by Reynolds and Lejuez (Chapter 2) takes a historical view; whereas the second by South and colleagues (Chapter 3) focuses on NPD and its possible representation in the *DSM-5*. The next chapter by Pincus and Roche (Chapter 4) examines one of

the major divides in narcissism: the distinction between grandiose and vulnerable narcissism. We then have the three chapters mentioned earlier—psychodynamic, social psychological, and trait approaches to narcissism/NPD. Section I ends with two more useful models: the agency model (Foster and Brennan, Chapter 8) and the mask model (Zeigler-Hill and Jordan, Chapter 9).

Section II focuses on issues of assessment for both narcissism and NPD. It begins with an overview of assessment measures for NPD (Watson and Bagby, Chapter 10) and trait narcissism (Tamborski and Brown, Chapter 11). Given the ongoing debate regarding the most commonly used measure of trait narcissism, the Narcissistic Personality Inventory (NPI), we have two chapters taking different sides so that readers get a full understanding of the issues involved (Chapters 12 and 13). The section ends with an important review of the assessment of narcissism in youth (Barry and Ansel, Chapter 14).

Section III focuses on the epidemiology and etiology of narcissism. Pulay and colleagues (Chapter 15) provide a detailed description of their large national epidemiological survey of NPD. This is followed by three perspectives on the etiology of narcissism: parenting (Horton, Chapter 16); development (Hill and Roberts, Chapter 17); and culture (Twenge, Chapter 18). This is followed by a new evolutionary model of narcissism (Holtzman and Strube, Chapter 19), and the section ends with a chapter on the neurological and physiological processes associated with narcissism (Krusemark, Chapter 20).

Section IV includes chapters that discuss the issue of comorbidity and correlates of narcissism/NPD. S. Simonsen and E. Simonsen (Chapter 21) report on the comorbidity of NPD with Axis I disorders, whereas Widiger (Chapter 22) reviews the comorbidity between NPD and other *DSM-IV* personality disorders. Next, Bosson and Weaver (Chapter 23) look at the complex relations between narcissism and self-esteem. Finally, Lynam reviews the relations between narcissism/NPD and psychopathy (Chapter 24).

Section V contains a range of chapters that describe the intra- and interpersonal processes associated with narcissism. These include social perception (Carlson and colleagues, Chapter 25), self-other discrepancies (Oltmanns and Lawton, Chapter 26), and self-enhancement (Wallace, Chapter 27). There are also chapters on the relations between narcissism and NPD and important social outcomes like aggression (Bushman and Thomaes, Chapter 28), shame (Tracy and colleagues, Chapter 29), romantic relationships (Brunell and Campbell, Chapter 30), and sexuality (Widman and McNulty, Chapter 31). These are followed by a pair of chapters on the manifestation of narcissism/NPD in social network analyses and social networks (Clifton and Buffardi, respectively, Chapters 32 and 33). The section ends with four more topical chapters on narcissism/NPD and: consumerism (Sedikides and colleagues, Chapter 34), leadership (Hogan and Fico, Chapter 35), celebrity (Gentile, Chapter 36), and spirituality (Sandage and Moe, Chapter 37).

The *Handbook* ends with a section on the treatment of narcissism/NPD. Each chapter represents the work of an expert in a particular approach: transference-focused psychotherapy (Diamond and colleagues, Chapter 38), attachment therapy (Meyer and Pilkonis, Chapter 39), schema therapy (Behary and Dieckmann, Chapter 40), cognitive behavioral therapy (Cukrowicz and colleagues, Chapter 41) and dialectical behavior therapy (Reed-Knight and Fischer, Chapter 42). Finally, we end with a review of experimental/laboratory manipulations from basic research paradigms that temporarily modify narcissistic behavior and may have promise for translational research (Thomaes and Bushman, Chapter 43).

We would like to end by giving our thanks to the many people who helped to make the *Handbook* a reality. First, we are grateful to all of the researchers and practitioners who contributed chapters. We were amazed that such a talented (and very, very busy) group would take the time to produce such terrific work for the book. Second, we would like to thank our editor, Patricia “Tisha” Rossi, at John Wiley & Sons. She immediately saw the need for a handbook on narcissism and NPD and has been 100% committed to making this project a success. Finally, we would both like to thank our families for their support throughout this process. Without their support none of this would have been possible.
